

SCT INTERACTIVE WHITEBOARD SOLUTION

智能互動白板方案

Facilitating your work procedures equates to cost
savings for your business

方便你的工作流程, 等同節省你的生意成本

Features

Video Conference

Diversified video communication, files, pictures and other data can share on the panel screen. for discussion, annotation, writing, and supports playback of conference video files.

視頻會議

多元化視訊交流,可將文件、圖片等數據導入觸控屏幕討論、批註、書寫,支持會議錄像文件回放

Wireless projection

Windows / IOS / Android devices can connect Interactive Panel, video content can be easily Projected on the panel screen without any cables, the content can sharing between panel and device , screen operation interaction.

無線投屏

支援手機、筆記本及電腦不需外接任何設備,以互聯網方式互相投屏,就算不在同一網絡下,可輕鬆將手上設備及屏幕內容共享及互動操作。

4K HD

4K display resolution, showing clear picture quality, HD display, colorful, high brightness, restore every detail, the best resolution is 3840*2160.

4K高清

4K顯示分辨率,呈現清晰畫質,高清晰,色彩飽麗,高亮度,還原每一個細節,最佳分辨率為3840*2160。

Easy to share

"One-click" convenient sharing function, writing and comment content/text

便捷分享

超便捷分享功能,書寫、批註內容/文件 [一鍵] 掃碼帶走。

Dual intelligence system

Dual-core, dual-stability guarantees Windows and Android are running simultaneously, and can perform screen annotation and screen saving functions on any signal channel.

智能雙系統

雙核心,雙重穩定保障,Windows、Android同步進行,在任意信號通道下可進行屏幕批註及畫面保存功能。

Intuitive 20 points of touch

Precise infrared touch technology supports 20 points, Synchronous touch, clear and smooth writing, without interfering with each other Operation / instant response / 0' s delay.

20 極速觸控點

高敏銳度紅外觸控技術,支持20點同時觸控,書寫清晰流暢,操作互不干擾、即時觸感無延遲。

Live broadcast & Recording

Support "one-click" course process recording live broadcast, real-time recording course notes, and implement features the course revisited.

現場直播 & 記錄

支持“一鍵式”課程錄製,現場直播,實時錄製課程筆記和真實功能令課程重現。

SCT

Energy saving and eye protection

Integrated board power supply, OPS, LED backlight three-in-one power supply, ultra-low standby power consumption, etching anti-glare technology combined with intelligent photosensitive adjustment systematic, truly achieve energy saving and eye protection.

既節能、又護眼

集底板火牛、OPS、LED背燈三合一供電,超低待機功耗,防眩光技術結合智能感光調節系統,真正意義上做到既節能,又護眼。

55" / 65" / 75" / 86" / 98" Intelligent Interconnected Display

Android 11.0 4+32G

Cholesteric Liquid Writing Board

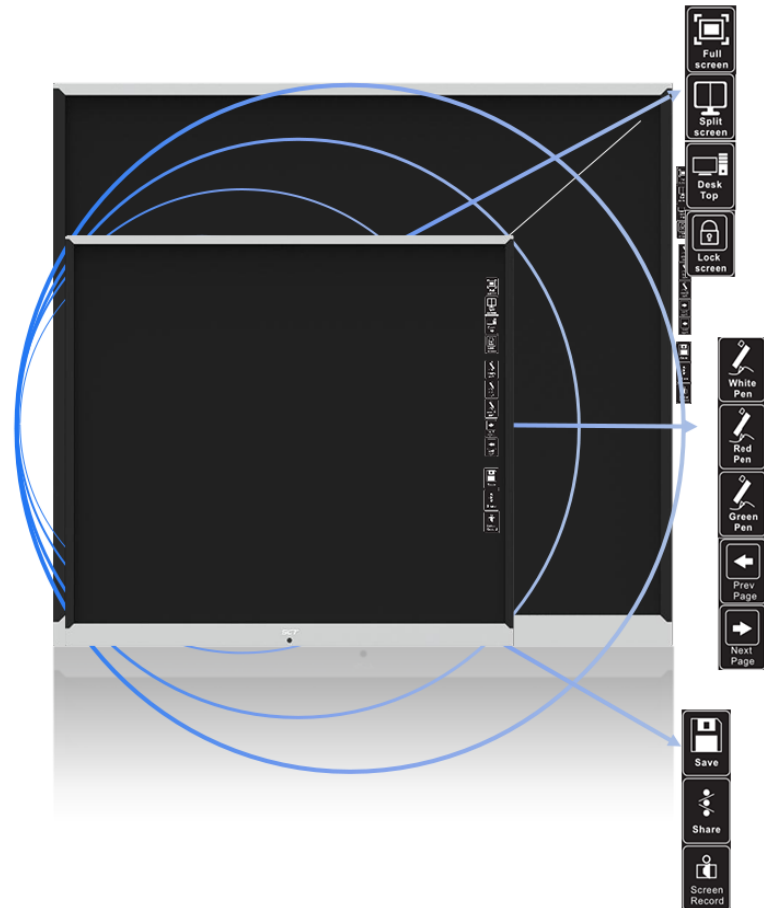

- Cholesteric liquid crystal is a reflective display technology with the advantages of high reflection brightness.
- Zero power consumption does not need backlight to display in the way of passive matrix.
- A wide viewing angle with high reflectivity.
- Achieve similar chalk writing effect and paper-like reading effect.
- Especially suitable for blackboard, bulletin board, e-book reading, etc.

1285mm*1165mm*28mm (H*V*D)

12kg±1.5kg1

Cholesteric Liquid Writing Board

Full screen: synchronously centered to save the writing and erasing tracks of the sub-board.

Split screen: the sub-board and the all-in-one machine can be written and erased at the same time, and when you click "Save", the integrated machine writing and the sub-board can be saved to two pages respectively.

Desktop: compatible with third-party application software, with blackboard writing content that records the current picture and sub-board of third-party software at the same time

Lock board: the handwriting of the control secondary board is out of sync, so that the secondary board can be saved selectively.

Pen color: pens in white, red and blue are preset in the software. Users can choose the color of the pen by clicking the shortcut key according to their needs.

Page flipping: quickly switch all pages currently saved by the user

Save: use together with "full screen", "split screen" and "desktop" to realize the timely recording of data

Share: click the "share" shortcut to generate a QR code on the Internet, scan the code on the phone or generate a PDF file in the "Share" folder of the computer desktop.

Screen cap: one-click screen cap (camera screen + user voice + computer desktop) to achieve rapid production of dynamic video

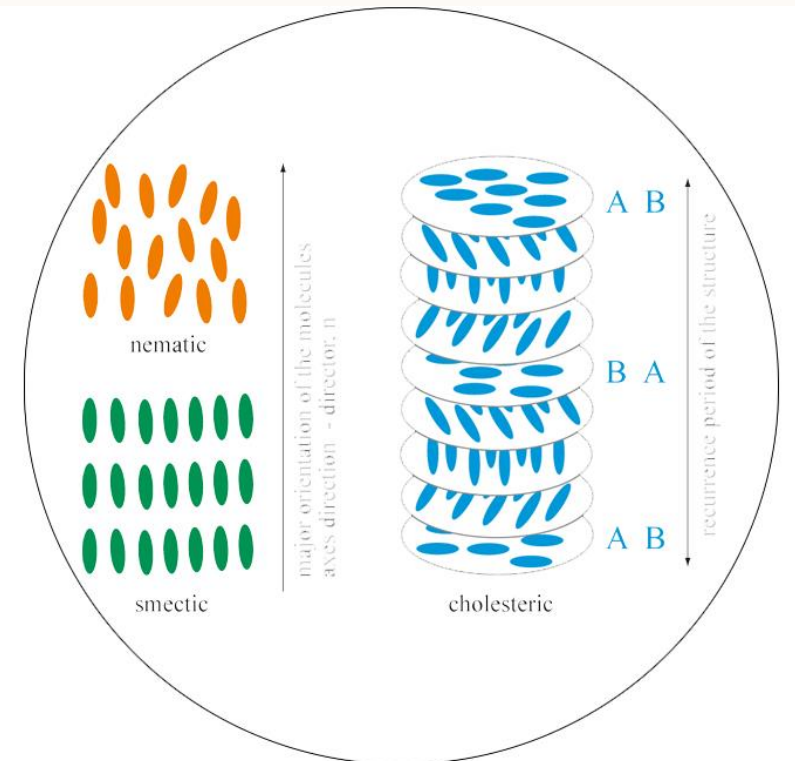

HOW CHOLESTERIC LIQUID CRYSTAL WORK.....

簡單認識膽甾型液晶.....

- Ø Cholesteric liquid crystal is a reflective display technology with Has the advantage of reflecting high brightness;
- Ø No power consumption does not require backlight and adopts passive matrix method to display;
- Ø Wide viewing angle with high reflectivity;
- Ø Realize the writing effect like chalk and water pen;
- Ø Especially suitable for blackboards, bulletin boards, PPT annotations, etc.

- Ø 膽甾型液晶是一種反射式顯示技術，具有反射亮度高的優點；
- Ø 零功耗不需要背光，採用無源矩陣方式顯示；
- Ø 視角廣，反射率高；
- Ø 實現類似粉筆和水筆的書寫效果；
- Ø 特別適用於黑板報、佈告欄、PPT批註等。

簡單來說膽甾是以不同的方向，分層組合而成，受壓會具有反射亮度的效果；物理效果在這裡不必太深入！如有興趣再深入了解，可在網上搜索一下。
